## OUR VISION

Compiere Pharma specializes in providing high-quality pharmaceutical raw materials, solvents, lab consumables, and hygiene products. With a commitment to reliability and excellence, we support pharmaceutical industries in achieving their goals efficiently and effectively by providing a one stop solution.

**We aim to meet the needs of clients through exceptional service.**

## WHY CHOOSE US?

**TRUSTED NETWORK OF SUPPLIERS**

**WIDE PRODUCT PORTFOLIO**

**CUSTOMER-FOCUSED APPROACH**

**RAPID TURN AROUND TIME**

## OUR VALUES

**QUALITY | INTEGRITY | RELIABILITY**

## OUR PORTFOLIO

At Compiere Pharma, we provide a wide spectrum of pharmaceutical essentials, from raw materials to everyday consumables

### Active Pharmaceutical Ingredients (APIs)

Wide range of APIs sourced from trusted manufacturers with strict quality checks. Ensuring purity, stability, and compliance with pharmacopeia standards.

Broad portfolio of APIs including :

1. Antibiotics drugs
2. Anti-inflammatory drugs
3. Antiprotozoal drugs
4. Antidiabetic drugs
5. Antifungal drugs
6. Cardioprotectant drugs
7. Vitamins /Enzymes/ Aminoacids
8. Extracts / Natural oils

### Inactive Pharmaceutical Ingredients (Excipients)

We provide a comprehensive range of high-quality excipients that enhance formulation efficiency and stability. We offer reliable, compliant, and diverse excipient solutions tailored to pharmaceutical manufacturing needs

Inactive Ingredients:

1. Lubricant Agents
2. Binding Agents
3. Excipients & Bulking Agents
4. Disintegrate / Superintegarte Agents
5. Solubilizing & Surgactant Agents

### Pharmaceutical Solvents

We deliver a diverse portfolio of pharmaceutical-grade solvents that meet global quality standards.

Our range includes:

1. Organic solvents
2. Inorganic solvents
3. Green solvents
4. Humectants
5. Sweetner / Viscosity increasing Solvents

### Analytical Instruments

Our analytical instruments portfolio supports precise testing, monitoring, and quality assurance in pharmaceutical processes. From advanced chromatography systems to UV spectrophotometers and industrial centrifuges, we deliver reliable tools for R&D and production environments.:

Advanced Analytical instruments available:

1. High Performance liquid Chromatography
2. Gas Chromatography
3. Analytical UV Instruments
4. Industrial centrifugal machine
